1	EQUTEATEA0022	IMAGING SYSTEM	1	Nos	ChemiDoc Go Imaging System with Image Lab Touch Software and Laptop The ChemiDoc Go system features advanced chemiluminescence and StarBright fluorescence detection for western blotting in a compact design. The ChemiDoc Go Imaging System allows sensitive imaging and documentation of DNA gels, protein gels, and chemiluminescent western blots. With an advanced CMOS digital detector, expect no compromises in sensitivity or linear dynamic range when using the ChemiDoc Go and Imaging System. Choose traditional chemiluminescent detection, colorimetric, or use cost-effective fluorescent StarBright™ Blue antibodies and go further with multiplex analysis. Normalize to total protein and eliminate the need to detect housekeeping proteins using Stain-Free Gels in your western blot workflow. Image Lab Touch Software Features: • Quickly set up the ChemiDoc Go System to capture your image, add notes, and export or print your files • Easily manage user accounts and set permissions and security options • Works with Image Lab Desktop Software for deep and accurate analysis of your data Product Contents • ChemiDoc Go Imaging System with Image Lab Touch Software • UV/stain-free imaging sample tray (additional imaging trays available separately) White Sample Tray for ChemiDoc

S.N.	SQU Product Code	Description	Qty	UOM	Remarks
					Go Imaging System Pkg of 1, white sample tray, for gels and blots stained with Coomassie Blue, copper, silver, or zinc stains, includes Gel Alignment Kit (12012190), for use with ChemiDoc Go Imaging System Blue Sample Tray for ChemiDoc Go Digital Imaging System Pkg of 1, blue sample tray, for nucleic acid applications with GelGreen Stain or any SYBR Stain and StarBright 520, StarBright 700. Includes Gel Alignment Kit (12012190) and XcitaBlue goggles (1708185), for use with ChemiDoc Go Imaging System Holder for Sample Trays and UV Shield Pkg of 1, imaging tray holder, holds 3 sample trays and 1 UV shield for ChemiDoc and GelDoc Imaging Systems; trays and shield not included UV Shield for ChemiDoc Go and GelDoc Go Gel Imaging Systems Pkg of 1, UV safety shield, to protect users from UV light exposure during band excision, for use with the ChemiDoc Go and GelDoc Go Gel Imaging Systems
